Joseph Montalto

EDUCATION

Tufts University

MS in Artificial Intelligence

Sept 2025 - expected May 2026

Thesis: Accuracy-Energy Tradeoffs in Natural Language Processing

BS in Computer Science, minors in Finance and Entrepreneurship

Sept 2021 - May 2025

Courses: Machine Learning, Data Structures, Algorithms

EXPERIENCE

ESG Flo (by Bain & Company)

New York, NY

Software Engineer Intern

Jun 2024 - Oct 2024

- Built Python-based ingestion and QA pipelines that standardized ESG metrics across 15+ enterprise accounts, increasing reporting throughput 40% and reducing manual cleanup before client delivery.
- Applied PCA and K-Means to user-engagement data across enterprise deployments, isolating high-signal adoption patterns that gave product leaders a quantitative basis for experiment design and roadmap prioritization.
- Authored SQL analyses that surfaced bugs, anomalies, and workflow drop-off points across client accounts, helping teams prioritize the fixes with the highest downstream impact on adoption.
- Led onboarding and training for 15 corporate client teams, translating a technically complex product into repeatable workflows that accelerated adoption and strengthened long-term platform usage.

Lucky Friday Labs

Norwalk, CT

Software Engineer Intern

May 2023 - Aug 2023

- Engineered a Python analytics service that processed 50K+ Ethereum transactions per day, giving the team real-time visibility into protocol activity and chain health.
- Implemented anomaly detection and Slack alerting for orphaned blocks, cutting monitoring-related costs 15% while reducing manual intervention.
- Reworked SQL queries and data access patterns to cut retrieval latency 30%, improving responsiveness for internal dashboards and ad hoc investigations.

Tutor.com, Freelance Tutor

Boston, MA

Software Languages and Calculus

Sept 2023 - Jun 2024

- Tutored 30+ students in Python, Java, C++, and calculus, turning debugging confusion and algorithm gaps into repeat bookings and stronger performance on assignments, quizzes, and exams.

CAMPUS AND COMMUNITY LEADERSHIP

Tufts Daily

Boston, MA

Assistant Editor

Sept 2022 - May 2025

- Investigated and synthesized complex policy topics into clear, accurate reporting, building the communication skills to present analytical insights to senior leaders.
- Collaborated with writers, editors, and designers under tight deadlines, strengthening cross-functional coordination similar to partnering with product, marketing, and content teams.

WMFO

Boston, MA

Radio Show Host

Sept 2023 - May 2025

- Hosted a weekly hour-long music program, engaging roughly 100 live and online listeners per episode.
- Trained 3 new DJs on FCC compliance, audio engineering, and on-air etiquette.

USRowing Nationals 3rd in the U19 Four

Jun 2021

Northeast Regionals 1st in the U19 Four

Apr 2021

USRowing Club Nationals 2nd in the U17 Four

Jul 2019

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, Java, C/C++, Swift, Rust, Haskell.

Frameworks & Libraries: React, Node.js, Flask, NumPy, Pandas, scikit-learn.

Cloud & Databases: AWS (EC2, S3), PostgreSQL, Firebase.

Tools: Git, Linux, Bash, Docker, VS Code, Xcode.
